INNOVATION COMBINED WITH STYLE & FUNCTION

SIMPLY **SMARTER** BY DESIGN

INNOVATION COMBINED WITH STYLE AND FUNCTION

Luxaflex Window Fashions offers a unique collection of window covering solutions that capture the essence of premium styling and the ultimate in function, versatility and innovation. The Luxaflex Softshades Collection are proprietary window covering solutions designed to revolutionise the way light and privacy control come together with fashion and flair at the window.

The ground breaking, original
honeycomb Luxaflex Duette Shades

The alluring beauty and functionality of
Luxaflex Silhouette Shadings

The expansive and glamorous Luxaflex
Luminette Privacy Sheers

THE ORIGINAL, ENERGY EFFICIENT HONEYCOMB SHADE

Introduced over 25 years ago, the enduring style of Luxaflex Duette Shades combines energy efficiency with a wide selection of fabric ranges and colours, smart and innovative operating system options and a window covering solution to suit almost any window shape.

FIVE EASY STEPS TO SELECTING THE PERFECT LUXAFLEX DUETTE SHADES

1. FABRIC SELECTION

The Luxaflex Duette Shades collection offers an abundance of choice when it comes to fabric ranges and colours. From the demur and subtle to the bold and dramatic, the fabric range has a style to suit anyone's home.

The Luxaflex Living Series fabric ranges include the affordable Millenia range, the delicate Sabelle range, the textured Daybreak and Dusk ranges and the earthen Sunterra range.

The Luxaflex Classic Series fabric ranges include the light filtering qualities of Classic and Symphony, the ultimate in blocking out the outside world with Nightfall and Midnight and the transparent, complete view through of the Sheer range.

The Classic Series also includes the ground breaking Duette Architella Panache fabric range. This unique fabric offer takes the honeycomb cell construction to the next level.

2. CELL SIZE

Available in two distinct cell sizes of 10mm and 20mm the Luxaflex Duette Collection can make either a bold and contemporary statement or a refined and graceful statement.

The selection of fabrics in the 10mm cell size includes Sabelle, Daybreak, Dusk, Classic and Nightfall. The selection of fabrics in the 20mm cell size includes Millenia, Sabelle, Sunterra, Daybreak, Dusk, Symphony, Midnight, Sheer and Panache.

3. CELL CONSTRUCTION

The uniqueness of Luxaflex Duette Shades is unparalleled with the honeycomb cell construction acting as an insulator trapping air within the cell, reducing heat gain in summer, and keeping your home cooler, while reducing heat loss in winter keeping you warmer.

The Luxaflex Duette Shades range offers two cell constructions for the ultimate in energy efficiency. The single cell construction provides insulation through its one core air pocket, while the revolutionary and Luxaflex exclusive Architella cell provides a cell-within-a-cell construction with two layers of fabric creating three air pockets for superior energy efficiency.

A selection of the 20mm fabric ranges feature TruPleat construction, keeping the crisp, consistent shape of the honeycomb cell from top to bottom and front and back on every shade.

4. OPACITY

Luxaflex Duette Shades are available in three distinct opacities.

Blockout: providing the ultimate in light and privacy control.

Translucent: gently filtering light, whilst maintaining privacy.

Sheer: allowing the outside view to be maintained whilst gently filtering the light.

5. OPERATING SYSTEMS

The selection of operating systems is almost endless for Luxaflex Duette Shades. With easy-to-use options, child safe systems, shapes, the option of manual or motorised solution there is an operating system to virtually suit any window shape and size.

Hartford series

Ultraglide Shades

Self lowering feature with a constant cord length for effortless operation.

LiteRise Shades

Cordless operating system with a clean appearance and enhanced child safety.

EasyRise Shades

Continuous cord loop operation for easy lifting of even large shades

PowerRise Shades

The PowerRise Lifting System offers a simple solution for motorisation with the option of either battery operation or DC power supply directly to a standard household power point.

Hardwire Motorised

The redesigned Hard-wired Motorised Lifting System features quiet motor technology and consistency with the same colour coordinated Hartford Headrail.

Specialty Shapes

Standard Option

For a traditional look that adapts to any window with the cords neatly secured by cleats

Skylight

Ideal for skylight, sloping windows or any hard to reach windows.

Vertiglide Shades

Cordless side-to-side operation, ideal for sliding doors in either left, right, centre, split or Duo-Lite Design Options.

Shapes

The perfect solution for almost any window. Operable shape shades available

Design Options

Duo-Lite

Combines fabrics on the one shade for the ultimate in versatility, privacy and light control.

Top Down/Bottom Up

Increase your window covering flexibility with total light and privacy control with a Top Down / Bottom Up or Top Down solutions.

EXPERIENCE THE DUETTE ARCHITELLA DIFFERENCE

Featuring the Luxaflex exclusive cell-within-a-cell construction the Duette Architella fabric range provides superior energy efficiency, a chic style and individuality like no other.

Architella Fabrics

Vibrant Colours

The multiple layers of fabric in Duette Architella Shades preserve the fabric colours and textures in bright sunlight and in opaque fabrics.

Consistent Beauty

For more uniform appearance, the inner TruPleat Construction of Duette Architella Shades, keeps every shade consistent from front to back and top to bottom.

Air Pockets

Duette Architella Fabric has three distinct air pockets for superior energy efficiency and increased insulation.

PANACHE

Panache Fabric offers a subtle, swirling look with a soft texture and smooth finish. The colour palette is heavily neutral with splashes of earthen tones. All Panache Fabric colours are available in matching translucent and blackout opacities.

Duette Architella features a 20mm honeycomb cell for a bold, chic and contemporary finish in any room. Available in blackout and translucent opacities.

REDUCE YOUR HEATING COSTS BY UP TO 43%[^] WITH DUETTE ARCHITELLA SHADES

Above: The Architella covered window on the right demonstrates significantly improved energy savings versus the uncovered window on the left.

Windows can make up 10% of a home’s insulated shell. Did you know that up to 30%# of the unwanted heat loss in winter and heat gain in summer occurs through uncovered windows?

In summer, Duette Architella Shades filter unwanted glare while deflecting heat, keeping your room cooler. In winter, Duette Architella Shades reduce heat loss, keeping your room warmer.

DUETTE ARCHITELLA SHADES R-VALUES

A product’s “R-value” is a measurement of its ability to resist heat flow. In a home during winter, R-values indicate the ability of walls, roofs and windows to keep the heat inside. The higher its R-value, the more insulation a product provides. A fully-recessed, reveal-mounted Duette Architella Shade can increase the R-value of a 3mm single glazed window from 0.13 to 0.78, reducing the heat transfer through that window by 83%. Independent modelling has shown that this in turn can reduce an average home’s heating costs by up to 43%[^].

R - Value**	0.10	0.20	0.30	0.40	0.50	0.60	0.70	0.80	0.90	1.00
DUETTE Architella 20mm Opaque	0.78									
DUETTE Architella 20mm Translucent	0.61									
DUETTE 20mm Midnight	0.52									
DUETTE 10mm Nightfall	0.45									
DUETTE 20mm Symphony	0.42									
DUETTE 10mm Classic	0.31									
DUETTE 20mm Sheer	0.17									
3mm Cl Glass	0.13									

** The R-values are the combined measurement of 3mm (one-eighth inch) Cl glass (R=0.127) plus the window covering and are reported in metric SI units. Thermal properties are determined by a certified third party laboratory utilising accepted ASTM, NFRC and WES standards and procedures. Measurements may vary based on window type and method of installation.

[^] Savings are based on the installation of fully-recessed, reveal-mounted DUETTE® Architella Opaque Shades in an average home in Sydney, compared with the House Energy Rating standard of Holland Blinds from AccuRate, in that home. These calculations have been modelled by an independent third party. Savings will vary based on the window type and installation.

Based on information from NABERS (National Australian Built Environment Rating System). Visit www.nabers.com.au for more information.

LUXAFLEX® *Silhouette*® SHADINGS

THE SIGNATURE S VANE WITH UNRIVALLED LIGHT AND PRIVACY CONTROL

Luxaflex Silhouette Shadings combine the signature S vane which tilts to provide light and privacy control with two sheer fabric facings that diffuse and softly filter light.

THE FEATURES OF LUXAFLEX SILHOUETTE SHADINGS

The Luxaflex Silhouette Shadings collection offers captivating colours and textures to transform any room. Featuring a selection of modern and traditional fabric ranges with colour palettes ranging from warm subdued hues, to natural, earthen shades to vivacious, daring tones.

The Luxaflex Living Series fabric ranges include the affordable lightly textured Brilliance and Mystique ranges, along with the modern and crisp Originale and Bon Soir ranges.

The Luxaflex Classic Series fabric ranges include the light and airy Bon Jour range with subtle swirl patterns and the Matisse collection with bold hues that colour the room to create a warm ambience.

VANE SIZE

Silhouette Shadings' signature S vane provides variable view through with the tilting of the fabric vanes. The amount of view through is also variable by vane size.

50mm Vane

50mm Vane Size provides a classic, understated look

65mm Vane

65mm Vane Size provides a vivid and aesthetic view through to the outside.

75mm Vane

75mm Vane Size makes a bold statement and creates drama to any window, whilst providing first-rate view through to the outside.

LUXAFLEX® *Silhouette*® SHADINGS

OPACITY

Feature two layers of sheer fabric, separated by a series of floating, soft fabric vanes Silhouette Shadings allow a gentle glow of light into your home when closed and almost disappear when open to gently diffuse light, combining privacy with a softly filtered view.

Translucent

Silhouette fabric vanes diffuse the light to provide a warm glow while preserving the outside view, when the vanes are tilted open.

Room Darkening

Silhouette fabric vanes help darken your room and provide complete privacy without total darkness, when the vanes are closed.

OPERATING SYSTEMS

Innovative, easy-to-operate and child safe operating system are at the core of the Silhouette Shadings.

EasyRise

Features a continuous cord loop which lowers and raises the shades, as well as tilting the vanes. The cord tensioner is mounted for enhanced child safety.

ULTRAGLIDE®

Features a retractable pull cord system, with the cord length remaining constant whether it is being lowered or raised. The single retractable cord offers enhanced child safety.

LiteRise

Features a cordless lifting system making raising, lowering and opening Silhouette Shadings easier than ever. This system offers both light control as well as enhanced child and pet safety.

Hard-Wired Motorised

Perfect for hard to reach windows and no lifting cords provide enhanced child safety. Available with switch control and/or remote control.

LUXAFLEX® *Silhouette*® SHADINGS

IT ALL BEGINS WITH THE “S”

S-Vane

Silhouette Shadings with the signature “S-Vane” creates beauty whilst proving practical benefits.

Transforms Harsh Sunlight

Vanes and sheers combine to softly filter light.

Provides UV Protection

Up to 88% ultraviolet protection with the vanes open, and 99% when closed.

Enhances Natural Daylight

Sheers disperse sunlight deep into the room, reducing the need for electric lights.

Preserves Outside View

No cords or tapes to obstruct outside views.

Reflects Solar Heat

Exterior white sheer reflects the sun's heat.

COVERING LARGE SPANS WHILST MANAGING LIGHT AND PRIVACY

Luxaflex Luminette Privacy Sheers combine the exclusive Softrak system, allowing for the fabric vanes to be completely functional with precise light and privacy control.

THE FEATURES OF LUXAFLEX LUMINETTE PRIVACY SHEERS

Offering fabric ranges with either a sheer or textured finish in a selection of white, neutral and beige tones.

The Luxaflex Living Series includes the 89mm Portico and Terrace textured fabric ranges in both translucent and room darkening opacities. For a more demure and chic sheer finish the series also includes 89mm Angelica, Luxe & Originale in the translucent opacity.

The Luxaflex Classic Series includes a series of sheer and textured fabrics being 89mm Stria, Sheer Linen and Linea in translucent. Available in the room darkening opacity for the Classic Series are 89mm Stria, Sheer Linen, Linea and Angelica.

LUXAFLEX® *Luminette*® PRIVACY SHEERS

VANE SIZE & OPACITY

A visually striking alternative to sheer curtains with the sheer single layer of fabric providing a filtered view through. Combined with a series of floating, vertical fabric vanes Luxaflex Luminette Privacy Sheers provide the benefit of either translucent or room darkening opacities when the vanes are closed.

Classic 89mm Vane

For a timeless and understated subtle element of design.

Translucent

Luminette Privacy Sheers fabric vanes diffuse the light to provide a warm glow when closed, ideal for living rooms, while preserving the outside view through the sheers when the vanes are open.

Room Darkening

Luminette Privacy Sheers fabric vanes darken your room and provide complete privacy without total blackout, making them ideal for bedrooms.

OPERATING SYSTEMS

Luminette Privacy Sheers offer enhanced child safety and ease of operation with the manual wand.

Combination Wand/Cord Or Travelling Wand

Both the Combination Wand/Cord and the Travelling Wand provide manual operation of the Softrak System hardware. Tilt and traverse functions are conveniently combined into one control. The Travelling Wand system is perfect for sliding glass doors. Simply push or pull the wand to traverse the product, and twist to rotate the vanes. The combined Wand/Cord traverse the fabric through a cord operation. Twist the wand to rotate the vanes. The Wand/Cord always stays in the same position unlike the Travelling Wand.

Travelling Wand

Wand/Cord

LUXAFLEX® *Luminette*® PRIVACY SHEERS

THE UNSURPASSED QUALITY OF LUMINETTE PRIVACY SHEERS

Provides total functionality to deliver the ultimate in light and privacy control.

The crisp vanes rotate for precise privacy and light control.

The fabric header conceals the exclusive Softrak Track System as the sheers traverse along the sleek, low-profile headrail.

The fabric edge treatment provides a neat, finished look.

The innovative Softrak scissor mechanism provides incredibly smooth and reliable operation.

Luminette Privacy Sheer fabrics have a durable, bottom finish designed to resist fraying.
